

Control Top Cover & NEMA 6 Upgrade Options

CONTROL TOP COVER MATERIAL UPGRADE

Part Number 133085+: SPX FLOW is pleased to announce an upgrade to all Waukesha Cherry-Burrell (2) piece control tops. Effective immediately, all Waukesha Cherry-Burrell (2) piece control tops and spare covers will be supplied with a copolyester material clear cover which will directly replace the previously supplied clear acrylic cover at no additional cost. The copolyester cover will appear the same as the acrylic cover in every respect and will provide the following features and benefits:

- Improved chemical resistance
- Enhanced long term durability in washdown environments exposed to high heat and humidity
- Flexible and resilient under pressure

NEMA 6 WASHDOWN UPGRADE OPTION

NEMA 6 Kit : Part Number 132288+: New and existing (2) piece Waukesha Cherry-Burrell control tops now have a NEMA 6 washdown rated upgrade option. This provides superior washdown protection to the standard NEMA 4X rating. The NEMA 6 option can be selected as an option on newly configured valves or can be quickly and easily added in the field to existing (2) piece control tops using a kit which contains all of the required components.
